PARACETAMOL MANUFACTURING TENDER RESPONSE TEMPLATE

Illustrative supplier response form for a fictional procurement exercise

Important: This is a synthetic training template. It is not issued, approved, or endorsed by Pfizer and does not reproduce any official Pfizer supplier policy. Replace all illustrative requirements with current, authorized procurement, quality, legal, regulatory, and EHS requirements before operational use.

Field	Supplier response
Supplier legal name	[Enter full registered name]
Manufacturing site address	[Enter full site address and country]
Primary contact / role	[Name, role, email, telephone]
Proposal reference / version	[ID, version, date]
Submission date	[YYYY-MM-DD]
Product scope	Paracetamol / acetaminophen; specify API, finished dosage form, strength, packaging and market(s)
Authorized signatory	[Name, title, signature and date]

Instructions to bidders

Answer every field. Use 'Not provided' where evidence is unavailable; do not leave a blank that could be mistaken for a zero-risk answer. Identify confidential information, validity dates, assumptions, exclusions, subcontractors and the exact manufacturing site. Attach evidence with document title, version/date and page reference. All claims are subject to independent verification.

1. Executive summary and scope

Describe the proposed product(s), manufacturing role (API, finished product, packaging, or other), intended markets, dosage form/strength, annual volume, and key assumptions.

[Supplier response]

2. Manufacturing capability and process controls

Topic	Required response / evidence
Site and equipment	Site profile, equipment list, process flow, batch sizes, dedicated/shared equipment and segregation controls.
Capacity	Validated/available capacity by month and year; committed allocation; surge capacity and constraints.
Process controls	Critical process parameters, in-process controls, contamination/cross-contamination controls, cleaning validation approach.
Qualification / validation	Equipment qualification, process validation, analytical method validation/transfer and change-control approach.
Traceability	Lot/batch traceability, raw material genealogy, retention samples and mock recall process.

3. GMP, quality system and product quality

Topic	Required response / evidence
GMP status	Applicable licence/certificate, issuing authority, scope, site, validity, inspection history; attach evidence.
Quality system	Quality manual, batch record controls, release authority, deviation/OOS/OOT handling, CAPA, change control.
Data integrity	Audit trails, access controls, backup/restore, record retention, ALCOA+ controls where applicable.
Complaints / recalls	Complaint handling, escalation timelines, recall readiness, mock recall results and quality agreements.
Testing / release	Specifications, methods, sampling, certificates of analysis, impurity controls, stability data and release timelines.

4. Regulatory readiness and documentation

List applicable registrations, manufacturing licences, inspection outcomes, market-specific requirements, technical dossiers, and documents that require follow-up. Identify gaps and planned closure dates.

[Supplier response and evidence index]

5. Supply, capacity and business continuity

Topic	Required response
Monthly / annual capacity	State nominal, demonstrated, currently committed and available capacity separately.
Lead time	Quote lead time from forecast/order, raw-material procurement, production, testing and release.
Supply chain	Key raw materials, approved sources, geographic concentration, second-source status and change notification.
Continuity	Disaster recovery, utility interruption, equipment failure, logistics disruption and shortage allocation plan.

6. Implementation and technology transfer

Milestone	Planned date / duration	Owner	Dependencies / acceptance evidence
Kick-off and quality agreement	[ ]	[ ]	[ ]
Specification / document review	[ ]	[ ]	[ ]
Technology transfer / method transfer	[ ]	[ ]	[ ]
Qualification / validation batches	[ ]	[ ]	[ ]
Audit and corrective actions	[ ]	[ ]	[ ]
Release readiness / first supply	[ ]	[ ]	[ ]

7. Commercial proposal

Cost item	Unit / basis	Price (currency)	Assumptions / exclusions
Product price	[per unit / kg / batch]	[ ]	[ ]
Testing / release	[ ]	[ ]	[ ]
Packaging / labelling	[ ]	[ ]	[ ]
Validation / transfer	[ ]	[ ]	[ ]
Freight / insurance / duties	[ ]	[ ]	[ ]
Other / one-time charges	[ ]	[ ]	[ ]
Total comparable cost	[same volume and basis]	[ ]	[ ]

Include minimum order quantity, payment terms, quote validity, escalation/indexation, taxes, currency, Incoterms if applicable, cancellation terms, and price validity assumptions.

8. EHS, security, risks and mitigations

Risk / control area	Current control, evidence, owner, residual risk
Worker safety / hazardous operations	[ ]
Environmental controls and waste handling	[ ]
Information security / access control	[ ]
Business continuity / force majeure	[ ]
Top five delivery or quality risks and mitigation	[ ]

9. Support, experience and references

Topic	Supplier response
Relevant projects	Product, scope, scale, dates and role; distinguish comparable work from adjacent experience.
References	Customer, contact authorization, scope, period and permission to contact.
Support SLA	Critical/urgent/normal acknowledgement and resolution targets, coverage hours, escalation path.
Technical support	Named contacts, complaint handling, change notifications, annual review and training.

10. Declaration and attachments checklist

I confirm that the information submitted is accurate to the best of my knowledge, that deviations and exclusions have been disclosed, and that supporting documents may be verified. This declaration does not replace a signed contract, quality agreement, audit, regulatory verification, or formal supplier qualification.

Attachment	Included? (Yes/No)	Document title / version / date
Manufacturing licence / GMP evidence	[ ]	[ ]
Quality system / key SOP summaries	[ ]	[ ]
Capacity and continuity evidence	[ ]	[ ]
Price breakdown and assumptions	[ ]	[ ]
References and experience evidence	[ ]	[ ]
Risk register / EHS evidence	[ ]	[ ]

Authorized signatory: _____ Title: _____ Date: _____
